

Post-Game Coach Tools - Entering Game/Player Stats: Emailing Sectional and Local Media

***Entering Football Stats can be unique. We have tried to make the process a little more streamlined. The processes for other sports are similar. Contact HSSS if you would like more information for your sport.

1. Entering the Line Score:
This will be where the final scores will post on the site in the scoreboards, calendars, and team pages for both teams.
2. This box will indicate which school's stats are going to post. When you are done, you can click on the 2nd team's name, and repeat the process.
3. When you click on "Add Passing", "Add Rushing", and all the other team area metrics that we have set up for you, you will be able to select players from the rosters.
4. Entering stats for only players who have them will streamline this process. It's also fully editable should you discover a need to add, delete, or make changes later. All stats will be assigned to the players you enter here.
5. You can enter all your stats for both teams, and be sure to click "Save".
