

High School Sport Stats has added a couple of new icons to the Coach Tools Console for reporting game results. I will introduce them to you using the mobile version screen shot. These icons also now appear on the desktop version for HSSS.

Note: The entering of a game's line score and final score (and saving) will update records and standings and move your team to seeding. The line score and game scores should always be entered as soon as possible after a game is over. The media email feature for complete game reports (with stats) works the same as before.

The Mobile Version

Click the edit game result icon to enter your line score for your game and save.

Click the home icon to enter the home team stats for the game and save

Click the away icon to enter the away team stats for the game and save.

The Desktop Version - Coach Console

SCHEDULE/RESULTS		ROSTER		ANNOUNCEMENT		LOCAL MEDIA		ADD EVENT		STATS REPORTING	
	DATE	START	OPPONENT	RESULT		LG	SD				
	12/2/2021	7:00 PM	Mt. Markham	W, 79-64							

1 2 3

1. The Final Line Score and Final Game Score
2. Home Team Stats
3. Away Team Stats

Once again we hope that using these icons whether on your computer or you mobile device, you will not be redirected away from your Coach Console and this will make the reporting of you games and your stats more efficient.
