

The Non-Section Opponent Dropdown Box

As of this Spring (2023), the HSSS database of non-section opponent schools continues to grow. As always, we like to ask coaches to email requests for teams to be added. Please include the city and state of the team you would like added. We can turn this around in less than 24 hours.

The non-section opponent dropdown is full and past it's limit to display every team in it. You might have to type in a couple of letters of the team until the one you seek appears, and then you can click it in place.
