

Sometime you know exactly who you would like to have receive your game report through email after a game. Does it make total sense to send your report to the Auburn Newspapers if you are the Herkimer Coach and vice-versa? Coaches or team owners can create Local Media mailing lists

The screenshot shows the Coach Tools interface for the 'Baldwinsville () Bees' team. At the top, there are buttons for 'REQUEST ACCESS TO ANOTHER SPORT' and 'HIDE TEAM INFO'. Below that is a navigation bar with 'Basketball (Boys) (2021-22 Season)'. The main content area includes a team logo, address, and contact information. A horizontal menu contains buttons for 'SCHEDULE/RESULTS', 'ROSTER', 'ANNOUNCEMENT', 'LOCAL MEDIA', 'ADD EVENT', and 'STATS REPORTING'. An arrow points to the 'LOCAL MEDIA' button, with the number '1' next to it.

1. In the Coach Tools Console, click "Local Media".

This screenshot shows the Coach Tools interface after clicking 'LOCAL MEDIA'. The 'LOCAL MEDIA' button in the navigation bar is now highlighted. Below it, a table with columns 'MEDIA NAME', 'MEDIA EMAIL', and 'CONTACT NAME' is visible, with 'None Entered' in the first row. An arrow points to the 'ADD MEDIA' button, with the number '2' next to it.

2. To begin your media lists, click on "Add Media".

Creating Local Media Mailing Lists

Page 2.

The screenshot shows the 'Coach Tools' interface for 'Baldwinsville () Bees'. The main page has a header with 'HS Coach Tools', 'REQUEST ACCESS TO ANOTHER SPORT', and 'HIDE TEAM INFO'. Below the header, there's a navigation bar with 'Basketball (Boys) (2021-22 Season)'. The main content area includes a team logo, team name, address, and contact information. A 'LOCAL MEDIA' button is visible. A modal window titled 'Local Media' is open, showing three input fields: 'Media Name', 'Media Email', and 'Contact Name'. A red arrow points to the 'Contact Name' field. At the bottom of the modal, there is a 'Red Fields are Required' message and 'Cancel' and 'Save' buttons.

3

3. You will have a chance to create a Media Name. For example: High School Sport Stats. You can enter the email address of that contact. For example: pkabel@frontiernet.net. And you can enter a Contact Name. For example: Phil Abel. Each "Save" will add to your mailing lists.

There is not one set way to use this feature. This is totally available to the coach or the team owner to set up Local Mailing Lists for game reports and final scores.

Email Results To Media

Continuing will send the game results and stats to the media selected. To avoid over emailing media you may want to wait to send until results and stats for both home and away have been entered.

Send to Section Media will send to ALL media outlets defined for the Section.

Send to Local Media will send to ALL media outlets defined for this School.

Creating Local Media Mailing Lists

Page 4.

5. This first icon will send your game reports to your Local Media, the media list that you set up and created*.

6. This second icon will send your game reports to the Media lists that are maintained by the Section at the Section III Offices.*

*Be sure to always send your game reports to the Syracuse.com newspaper.

NOTE: Think about always including yourself and your email in your local media lists. You will receive the reports and as a verification that your reports did get out properly.

Good luck to everyone in the 2021-2022 School Year
