This feature will allow you to do a couple of things:

1. You can have someone in the pressbox at games writing down the scoring details and posting to the website's SCOREBOARD, LIVE! At the game.
2. You can use your notes to show the scoring details in the game by Quarter and by Time as the scoring occurred.

Clicking on the Clipboard will give you this look.

1. Entering the score by quarters. NOTE: You will enter the scoring by quarters. For example a 14-0 score at halftime will be entered 7 7 for the 1<sup>st</sup> and 2<sup>nd</sup> quarters. It will be important to note, that entering the final scores should be done with the edit pencil back in the Coach Tools and SAVE.
2. If you have already done the line scoring and final scores, this will be filled in for you.
3. After a score, click on "Create New Entry"
